

Adamariz - STEP

|Intro: A3|

Yeah

Woah

Yeah

Yeah

Woah

Woah

Woah

Woah

Woah

|Hook: A3|

I said

First things first

When we hop out

Bring the whole clique

Worship like a Blicky

Demons scatter when it goes click

Only could be God

Had to make sure we ain't trippin

Had to watch our step

When we were stopping on your roofing

Had to watch our step

Had to watch our step

Had to watch our step

Let's go

Let's go

Had to watch our step

Had to watch our step

Had to watch our step

Let's go

[Verse: adamariz]

Had to watch my step

Before the clout gets to my head

Stuck between praising Him

Or stacking the bread

They use to l̩ɔ̃və me on read

Now I'm countin b̩ɔ̃njamins

Imma just move on instead

Had to focus on the creator

Not on if I'm a failure

Had to change my behavior

Felt the traitors tryna stop my savior

From working in me

Had to get rid of the envy

What God gives is plenty

My provider

Will suffice

Don't need to drip with ice

But if I get it, shoutout to Christ

Cause He really saved my life

Woah

**Yeah so I'm watching my step
Gimme my respect
Worked for a long time with no check
They thought I wasn't a threat
Till I grabbed the tec
They know if I shoot, it ain't a text
Woah**

**I'm really living what I'm rapping
And I'm passing all my classes
My money ain't subtracting
Adding God into mathematics
Means I am never lacking
If they think that I'm relapsing
Pray, don't to get to yapping
From the drama I ain't walking from
I'm prancing
Watchin' my step
Gimme my respect
Watchin' my step
Gimme my respect
Watchin' my step
Gimme my respect
I said**
