

Revolver - Calm Down

Calm Down lover of mine

There ain't much time to wait before the ecstasy

You know when I'm alone I think of you and me and it makes me happy

Calm Down everyone there ain't

Much time to wait before we will leave

I know a place upon where

We will be able to live and feel much more happy

You know it looks like

You know it feels like

It's like a dreammmmmm

Calm Down friends of mine

There ain't much time to wait before you see you at the sea

You know it's the first time

We go out all together

It must be happy

You know it looks like

You know it feels like

It's like a dreammmmmm

Hm hm hm hm

Calm Down lover of mine

There ain't much time to wait before the ecstasy

You know when I'm alone I think of you honey and it makes me happy

You know it looks like

You know it feels like

It's like a dreammmmmm

Hm hm hm hm

Hm hm hm hm

Calm Down everyone

There ain't much time to wait before we will leave

I know a place upon where we will be able to live and feel much more happy

You know it looks like

You know it feels like
It's like a dreammmmmm
