

Foxes on the Run - Supernova

|Verse|

House on the mountains, nicest view of town

What a place that'll never close down

You can come in if you like, just don't let your guard down

They want you to fall in love, get your number, consume you whole

|Bridge|

Yeah

Oooh

|Chorus|

|Verse|

Off to a dark room, a gentle touch

No turning back, ready to explore

The intricacies of life, are so tight

A supernova of feelings right through my mind
