Gentleman - Memories

You know i won't forget you

And i will always respect you

Thank you jah for everything

And i bless the very, very day i met you

'cause everything have reason

Like every time have season

Things go round in cycle circle

Don't know why, but they can hurt you

The sadness won't fade away

No it won't go away

It's funny how memories don't leave like people do

That's why i have to say

I'm making this point today

It's funny how memories don't leave like people do, noo

If i could go back from where it started

And still could call your name

If i coulda told you before we departed

Now things are not the same

If i could go back from where it started

And still could call your name

If i coulda told you, i wish i coulda told you

I remember when we used to cooperate

We had one aim you never hesitate

And nothing wha me do you nuh underrate

You was a true friend, memories won't evaporate

Tragedy we never anticipate

It's like a dream and yet i am wide awake

Some genuine vibes we generate

And now i'm gonna show you how much i appreciate

If i could go back from where it started

And still could call your name

If i coulda told you before we departed

Now things are not the same

If i could go back from where it started

And still could call your name

If i coulda told you, i wish i coulda told you

We used to share the same dream, same goal

One team, a so we used to roll

No separation, manipulation, allegation

Because you was a very good soul

One aim, one heart, one god

And we used to have the same thought

No limitation to inspiration, motivation

Sadness won't fade away

No it won't go away

It's funny how memories don't leave like people do

That's why i have to say

I'm making this point today

It's funny how memories don't leave like people do, noo

If i could go back from where it started

And still could call your name

If i coulda told you before we departed

Now things are not the same

If i could go back from where it started

And still could call your name

If i coulda told you, i wish that i could have told you
