

Foxfredito - Groove

Baby ndagukunda Chane and I really wish that you knew

Nakupenda galdem walai

Bituma nseka iyo mbona ubyina indirimbo yange

Na kama ukona na vibe I die for you die for you

When you move your body body

Makes me wild cannot explain

I just wanna be on your side

Urashimi shije

How love is all about games

Baby move your body to the tune

Usilegeze Hadi noon

Urikeza chane sheri

Wooh wooh

Baby move your body to the tune

Usilegeze Hadi noon

Urikeza chane sheri

Yeeeah yeaah

Toka day one thought the feeling was a mess

If you hit it from the back then you proly on a drug

Cannot explain all I see is fate then you better have game Ju sitakinku excess

Wish I could make you mine and we both know that

Say the word

Say the word

Say the word

We're two peas In a pod and and we both just click

Bad boys

Bad boys

Everytime I see you my mind just go mad

I'd let you even lick it if you want more

We gone make this world our own domain dance till the morning

Put a ring up on it
