

Gentleman - Wings To Fly

Verse 1:

**Everyday we hear about crosses
People see their own and suffer and complain about those losses
Fingerpointing all the time about to cast this
Yet to figour out it just a bunch of jah curses
All of this seems so unfair
But i will never ever give u nothing more then we can bear
I see them agwaan we dont care
Forget about the lesson them have learned**

Chorus:

**So we got no wings to fly
Im trying so hard all the time and its pain enough to cry
The sufferation is a shame and it seems to multiply
But its not over untill its over theres no way to deny
No its not over untill its over**

Verse 2:

**From way back when we awar
Systematic all we making are disturbance from near and far
You puttins bombs on the cars
Another terrorist attack and people living at the tourist bazar
And the victim them are carried a scar
And the actions and the living we find so bizar
But if we keep our head up high we can make it to the sky**

Chorus:

**And now we find the wings to fly
Im trying so hard all the time and its joy enough to cry
The sufferation is a shame and it seems to multiply
But its not over untill its over theres no way to deny
No its not over untill its over**

Verse 3:

**That time we know that tomorrow it will never come
Wipes all the moments and we just like the rising sun
Been around long enough to know just were coming from
The blame and the same and the fame that we get along
Its incredible we last so long when right are wrong
Live up till your faith is strong
Is this the moment you been waiting on
This is the moment**

Chorus:

**So we we got the wings to fly
Im trying so hard all the time and its joy enough to cry
The sufferation is a shame and it seems to multiply
But its not over untill its over theres no way to deny
No its not over untill its over
And so me sing again
All of this seems so unfair
But i will never ever give u nothing more then we can bear
I see them agwaan we dont care
Forget about the lesson them have learned
So we got no wings to fly
Im trying so hard all the time and its pain enough to cry
The sufferation is a shame and it seems to multiply
But its not over untill its over theres no way to deny
No its not over untill its over**
