

Derek Pope - Hotel

[Chorus]

Oh well

Guess you know myself so well

What's your secret, I won't tell

Checked out of my mind's hotel

Feels like I've been here

Feels like I've been here

Feels like I've been here

[Verse 1]

Floors take hold of me

Doors that I've fallen for

Place keeps calling me

Don't you ever wanna know the strangers staying in your head?

Sitting in the lobby like they've got nowhere to rest

I've seen it all before

[Chorus]

Oh well

Guess you know myself so well

What's your secret, I won't tell

Checked out of my mind's hotel

Feels like I've been here

Feels like I've been here

Feels like I've been here

[Verse 2]

I can outrun the chase

I'd try getting away

But I'll just get in the way

Only place I know I'll pretend to be safe

While the guests look at me like I'm out of place

**Like I'm not the face, 'cause I vanish for days
Keep the wolves on a leash don't know how to behave
No more running by the pool when the blood leaving stains
All my demons like me, even smile the same**

[Chorus]

Oh well

Guess you know myself so well

What's your secret, I won't tell

Checked out of my mind's hotel

Feels like I've been here

Feels like I've been here

Feels like I've been here
