

Revolver - Birds In DM

**So many times, I try to hear
What you were trying to say
Birds in my mind, guns to your head
Is this how you want to play ?**

**And we are only two
But it's not hard to do**

**So many lies to realize
What we couldn't understand
We look at them rise while we are here
But you and I know the end**

**And we are only two
But it's not hard to do**
