

Bing Crosby - Once And For Always

**Once and for always
Let's have it understood
We will be together
Just the way we should!**

**Let's not wait and hope
For something more sublime
Don't you know that always
Isn't too much time?**

**So, once and for always
Let's say that it's agreed
Wishing days are over
This is all we need!
And tonight we'll notify the stars above
That once and for always
And no less than always
You and I will be in love**

**And tonight we'll notify the stars above
That once and for always
And no less than always
You and I will be in love
We'll be in love**
