

## **The Burns Sisters - River Of Sorrow**

**I had a dream the other night  
I remember the morning light  
Looking out the sky was cold and gray  
I was standing by a river wide  
And you were on the other side  
The only bridge across washed away**

**And I was calling to you, you couldn't hear me  
The river of sorrow raging on  
Rain falling down on me  
And I was just a memory  
Everything we had was gone  
Lying here I think of you  
And all that I have put you through  
Choices that I made along the way  
Broken hearts both yours and mine  
And all the dreams we left behind  
The lessons that I learned and the price you paid**

**Now I'm calling to you but you can't hear me  
The river of sorrow rages on  
Let the rain fall down on me  
And leave me with my memories  
The love that we had is gone**

**Yeah and I know it's time for moving on**
