

Revolver - Untitled 1

**They look at you and think you're just a fool
They say you have a monkey in your room
They're laughing, staring at you everyday and night
When most of the time you try to be so quiet**

**There's ice in their eyes and fire on their skin
They say what should never be
Giving advice when they don't have any clue
And most of the time you try to let go**

**And all that you do is just try to forget
All that you're doing is just trying...
Ohohohohohoh
They look at you and think you're just a fool
They say you have a monkey in your room
They're laughing, staring at you everyday and night**

When most of the time you try to be so quiet

**And all that you do is just try to forget
All that you're doing is just trying...
Ohohohohoh**
