

Chris Cohen - Rollercoaster Rider

**And way down there by the gate
You can almost hear the sound
Of the bumper cars' crash
And laughter all around**

**Like the ferris wheel spinning
Whirry circle in your mind
So you board the rollercoaster
To leave them all behind**

**And you're riding
Right on the track
You go all around
But then you come back
You go upward
Then you go down
You go upward then you go down
You go upward then you go down**

**On to the giant dipper
And pay them what is owed
They let you go up to the top
Of gravity pressure road
The mountainous potential
You spend it all at once**

**When you're riding
Right on the track
You go all around
Then you come back
You go upward**

Then you go down

You go upward then you go down

You go upward then you go down

That mile you do over

That mile you do over

That mile you do over

That mile you do over

Again

I can tell you go back

I can tell you go back
