

WAVES - U Forever

**We got lost, time and again
I don't want a one night stand if it's gonna end
Can we put this silence to rest?
I don't wanna hold your hand if it's all pretend**

**And if this feeling's forever, then why
Do we keep saying goodbye?**

**Hey, as the night turns to day
Baby don't walk away
I don't want you now, I want you forever
Woa-oh, as the sun starts to grow
Baby just please don't go
I don't want you now, I want you forever
I want you forever
I want you forever
I want you forever
I want you forever**

**Temporary love as it's best
Couldn't fill all of the holes that are in my chest
We are more, much more than we said
Maybe we could end up with each other instead**

**And if this feeling's forever, then why
Do we keep saying goodbye?**

**Hey, as the night turns to day
Baby don't walk away
I don't want you now, I want you forever
Woa-oh, as the sun starts to grow**

Baby just please don't go

I don't want you now, I want you forever

I want you forever

I want you forever

I want you forever

I want you forever
