

The Burns Sisters - We Never Said Goodbye

**We were together for a long time you and I
All the love and happiness we just let it fly
But when troubles came we closed our eyes
So afraid of the truth we started living a lie**

**We never said goodbye
We never held each other one last time
The moment slipped on by
We never said goodbye**

**I remember everything about our early days
The sweetest memories I'd never trade
But we can't go back, and I'll never forget
All the love that we shared
Still, I have one regret
We never said goodbye
We never held each other one last time
The moment slipped on by
We never said goodbye**

**Sometimes love doesn't turn out like you plan
You've got to let it go if you can
Look me in the eye "come on, take my hand
We'll make it from the heart, the way that we began**

**We never said goodbye
We never held each other one last time
The moment slipped on by
We never said goodbye
We never said goodbye
Let's finish what we started, leave it behind**

It's not too late to try

Come on, say goodbye
