

## Mac Miller - I'm Ready

{Intro}

Aha, ayo

I'm ready for whatever this world brings to me (Mac Miller)

I'm ready for tonight, I'm ready for tomorrow

And whatever's after that, you feel me? Let's get it

{Chorus}

We stay fly (Fly), new clothes on (On)

Smokin' on that Drake 'til I'm so far gone

I'm ready, I'm ready, I'm ready, I'm ready

Baby girl, you fly (Fly), why we gotta wait? (Wait)

Let's take a drive, I need to get away

I'm ready (Yeah), I'm ready, I'm ready, I'm ready

{Verse 1}

Uh, uh

Ain't a damn thing change, I'm happy to get away

Leavin' shorty's in the mornin', she's grabbin' on me to stay

But I'm ready for the next stage (Stage)

Just text me, she said I hit it out the park like Fenway (Aha)

Ayy, it's just one night's work

Have her stayin up late, then sleepin' in my shirt

Girl, I gotta leave now, I need to get to work

I'm a young heartbreaker, believe me, it's a curse (Uh-huh)

But hey, I stay focused 'cause the money come first

Take my real life situations, throw 'em in a verse (What?)

Uh, that's the formula for the truth

It's more than just what I do, I'm explorin' it for the proof (Uh-huh)

Who am I? Muhfucker, who are you?

Don't be askin' questions you should know the answer to (Right?)

You should know my name, don't forget me

'Bout to takeover the game, I'm ready
