

Poi Dog Pondering - Circle Around the Sun

{Verse 1}

My ghost is everywhere here
It hangs on every tree
Lingering with every flower and leaf
Smell of scent, and sight and sound
These are calling cards of other times

{Verse 2}

Familiar days and forgotten phases
Like water trickle down, down, down
Time is an ocean, and I'm set to swim
And I'm tumbled by her

{Chorus}

Circle around the sun, turn, turn, turn
One day my turn will come
I'm stretched by time and torn by fate
I'm held together by the flesh of faith

{Verse 3}

Pushing up, I hope for the sun
But I'll take the rain with what all it comes
I walk, my feet roll, my arms sway to and fro
Who am I to try to guide my life?

{Verse 4}

Like the tribes that came before us
And all the kings and queens
And our ancestors through the centuries
Through the birth of a child
I return the gift that was given me
The wind on the skin, and the pull of gravity

{Chorus}

Circle around the sun, turn, turn, turn

One day my turn will come

I'm living every minute and dying every day

I hope my heart is in the right place
