

## **The Burns Sisters - Old Friend**

**We grew up together as fast as we could  
Both of us angry and misunderstood  
We broke all the rules that got in our way  
Not knowing or caring the price we would pay  
With the luck of the young and the will to survive  
Sometimes I'm amazed that I'm still alive  
I'd do it again, it was worth every mile  
What I'd give tonight just to see your smile**

**My old friend, where are you now?  
My old friend  
With the fire in your heart and your head in the clouds  
Old friend  
I wish you'd come around  
My old friend  
I want to see you again  
Driving the back roads, chasing the moon  
Sometimes we wouldn't get home until noon  
Whispering secrets, singing out loud  
There were so many mysteries we wondered about  
With nothing to lose and no one to blame  
Dancing like fools in the Florida rain  
Searching for truth and questioning why  
I remember the night that you said goodbye**

**My old friend, where are you now?  
My old friend  
Making me laugh when life brought me down  
Old friend  
I wish you'd come around  
My old friend**

**I want to see you again**

**For all that running 'round**

**I'm glad to be back in my hometown**

**And if I knew back then what I know now**

**I'd do it again, it was worth every mile**

**What I'd give tonight just to see your smile**

**My old friend...**

**Wish you'd come around**
