

## **The Burns Sisters - Heavenly Blue**

**The band was playing a Cajun song  
I hadn't danced in so long  
You tipped your hat when my eyes fell on you  
I took your hand and I took a chance  
Headed for that fatal dance  
I felt my heart turn heavenly blue**

**Heavenly blue  
Heavenly blue came over me  
Dancing with you  
I never knew heavenly blue  
'til I looked in your eyes and I saw heavenly blue  
We moved together on that floor  
We spun, we turned and we danced some more  
It was only you and me in the room  
The music stopped and you were gone  
I guess angels don't stay long  
They slip away like a flower's bloom**

**It's been a while since that summer night  
The music played and the stars were bright  
The night I held your hand by the light of the moon  
I think about that memory  
And how you cast your spell on me  
And once again I turn heavenly blue**
