

## **The Julie Ruin - Girls Like Us**

**Girls like us like cotton candy  
Plastic handbags alcohol  
Girls like us sometimes ignore people on the street  
Even though they're people that we know  
Girls like us sneak breaks at Wendy's  
And girls like us invented jazz  
Girls like us have no foundations  
Creation myths are so passÃ©**

**Girls like us  
Girls like us  
Girls like us might flock to scandals  
But girls like us don't give a shit  
Girls like us pick up the hot handles  
And burn our hands and we get over it  
Girls like us use highlighter pens  
Especially to write our poems  
Girls like us stand back to back  
Just because you know we want to know**

**Girls like us  
Girls like us**

**Girls like us eat salt for breakfast  
Girls like us are good at that  
Girls like us refuse to hang  
License plates on our bedroom walls  
Girls like us carry our passports  
Just in case you know we have to go  
Girls like us are most perfect  
When we're biting off all our fingernails**

**Girls like us  
Girls like us  
Girls like us  
Girls like us  
Girls like us use highlighter pens  
Especially to write our poems  
Girls like us stand back to back  
Just because you know we need to know  
Girls like us are maybe most perfect  
When we're biting off all our fingernails  
Girls like us love the calm  
Just before it starts to hail**

**Girls like us  
Girls like us  
Girls like us  
Girls like us**
