

The Burns Sisters - New Kind Of Old Fashioned Girl

**I'm a new kind of old fashioned girl
Making my way through this world
The road, it's not easy
But I'll find my way
I'm a new kind of old fashioned girl**

**I like canning peaches and making cherry pie
A sentimental movie can make me cry
Sitting on the porch swing holding hands gives me a thrill
But I make my own decisions and I pay my own bills
I'm a new kind of old fashioned girl
Living in this crazy world
Trying to make a living
Doing what I can
I'm a new kind of old fashioned girl**

**Taking care of kids and going to work most every day
Sometimes cooking dinner is the high point of my day
But I like going dancing to chase away the blues
I don't want a lover who tells me what to do**

**I'm a new kind of old fashioned girl
Making my way through this world
The road, it's not easy
But I'll find my way
I'm a new kind of old fashioned girl**

**Some folks think I'm pushy cause I say what's on my mind
What's the point of living if you're lying all the time**

I'm a new kind of old fashioned girl

Living in this crazy world

Trying to make a living

Doing the best I can

I'm a new kind of old fashioned girl

I don't mind getting dirty taking care of all the chores

The car, the house, the garden; there's always more

But I like getting flowers and wearing pretty things

My main ambition's not a diamond ring

I'm a new kind of old fashioned girl

Making my way through this world

The road, it's not easy

But I'll find my way

I'm a new kind of old fashioned girl

I'm a new kind of old fashioned girl
