

Revolver - Do You Have A Gun?

**Have you seen that girl
The other night at the club ?
She was wearing black like the other year**

**As a bird she came
Couldn't forget her name
J-U-L-I-A used to hate cocaÃne**

**Then we're in a bar
We couldn't get too far
Dead drunk with happiness too much to drive my car
Do You Have A Gun ?
Something must be done
Six holes and a bullet would be such fun**

**It's been half a day
Since I know she's in grey
It's been half a day I still wanna play**

Now she says she hates me

**As much as everybody
Now she says she hates me and comes over me**

**I remember the bar
We couldn't get too far
Dead drunk with happiness too much to drive my car**
