

Crabb Family - A Mountaintop for Me

**The journey's been so long and weary
And my strength seems gone
But in the valley it takes more travel
By Grace I'm goin' on
For by Faith there is a place I can almost see, I know God has a Mountain-top for me**

**Though I've gone through the valley low
Climbed the mountain high
I've been through the rivers deep
Came through the swelling tide
I know there is a resting place
A land of joy and peace
Very soon, there'll be a Mountain-top for me
I have wept bitter tears
Thought night would never end
Had nothing left to hold onto
Except my Faith within**

**The adversary promised
I'd go down in defeat, but all along
That was a Mountain-top for me**

**Though I've gone through the valley low
Climbed the mountain high
I've been through the rivers deep
Came through the swelling tide
I know there is a resting place
A land of joy and peace
Very soon, there'll be a Mountain-top for me**

I know there is a resting place

A land of joy and peace

Very soon, there'll be a Mountain-top for me
