

## **Will Stetson - Lower One's Eyes**

**It's just a prayer and i'm aware it's fading, but oh  
Where'd my love retreat? i stare out as the curtain  
Tears on up high on the stage, so fare thee well  
We'll leave our peace and never meet up again**

**My tongue is tied, no thoughts on the mind  
When every feeling fades outâ€”nothing behind  
And all the pressure, pushing's leavin' me tired and drained  
I tie a muzzle tight to cover my heart  
To keep the mind in check, my words undÐµr bars  
But every corpse-likÐµ sound is screaming to break from the chains  
I hide my eyes from shame i regret  
As all my failures build up blinds in my head  
Cause now i'm in too deep, but down to the end i'll remain  
A tired rasp stings straight down a throat i neglect  
I try to find a glass, but everything's wrecked  
Without a word, i stare not knowing a thing i should say**

**Every feeling that i had inside has now all left me out to dry  
Sorta the same now, sorta different, sorta sly  
I don't know how far down i'll make it, or if i can see you out  
What, oh, are you thinking as you're sinking in the darkness now?**

**If i never get to see you again, if i never come and find you my friend  
Then i'll tie you ever tightly here beside me, never slowing  
If you find you have a chance here with me, if you never wanna get up and leave  
Then don't give up on that feeling, the future's ours for reaching  
Soon you'll see**

**Peaceful, happy days, for attrition's paid  
In truth it's all the same**

The pain and pleasure both divy the weight  
Every sad regret, every panting breath  
â€œlet's run and break away, this hall's doomed anywayâ€•

I whisper in the wistful, warping setting sun  
Always the same, it's always the same wish, every one  
I don't know how to start this journey, or if i've forgotten how  
What, oh, am i thinking as i'm sinking in the darkness now?  
If we're ever growing sick of this bet, if there's ever nothing more to be said  
Then i'll free you from the nightmare here beside me, never slowing  
So we both can keep a cage on our hearts, so we stop from ever falling apart  
Let's exchange those very pieces, i'll treasure all their heat  
So let's start

Crying there with you  
Laughing after you  
Fighting there with you  
Singing there with you  
Dance a pas de deux  
Chatting there with you

Whisper in the wistful, warping setting sun  
Always the same, it's always the same, i can't go on  
So that i never lose your breath upon my nape, i'll carry on  
In the end, i wonder, just how long i'll have to keep these thoughts

Only us again, ifâ€!

If i never get to see you again, if i never come and find you my friend  
Then i'll tie you ever tightly here beside me, never slowing  
If you find you have a chance here with me, if you never wanna get up and leave  
I'll make sure this precious feeling, the reason for my being is  
Always, always, free and eternal like my never ending love
