

## **The Burns Sisters - Stay Away From Me**

**You've been making eyes at me all evening  
Standing closer than you oughta be  
I have seen you here before  
Holding someone else's door  
Mind if I ask you, where is she?**

**You didn't act like this last time I saw you  
As I recall you never left her side  
Just 'cause I don't see her here  
Doesn't mean the coast is clear  
My eyes are open wide  
If you're not free, stay away from me  
You can never be mine  
Don't waste my time  
If you've got someone else at home  
And a heart that needs to roam  
Then you're not free  
Stay away from me**

**Not so long ago I had a true love  
I didn't know just what I had back then  
I played around and broke his heart  
Our little world just fell apart  
I won't be a part of that again**

**I could be tempted  
But heartache's expensive  
And I can't afford the misery if you're not free  
No, I'm not into playing games  
Breaking hearts in Love's name  
If you're not free, stay away from me**
