

The Julie Ruin - Stop Stop

Stop stop

I'm getting tired

One thing

At a time

Beep beep

I'm coming through

It's just me

Brigadoon

I I

Can't decide

To the sea

To the side

Day one

Twenty five

Doors are closing

For the second time

Oh god

I'm getting so tired

Can't breathe and I think I'm gonna die now

I left a job that was hard to find

I called you on the phone and you said I'd be fine

I crawl towards the words and just cannot say

I make my living fake forgiving

Wooooooooh!

What

Stops you from being sure?

I can hear you fine

I can hear you fine

Stop stop

I'm getting tired

One thing

**At a time
Beep beep
I can't decide
To the sue
To the cide
Oh god
I'm getting so tired
I can't breathe and I think I'm gonna die now
I left a job that was hard to find
I called you on the phone and you said I'd be fine
I crawl towards the door and the words won't come
I make my living over giving
Wooooooooooh!**

**Oh god
I'm getting so tired
I can't breathe and I know I'm gonna die now
These tiny moments they are all I have
A twenty dollar bill it just makes me laugh
I call you on the phone but the moment's all gone
I make my living over giving
Wooooooooooh!**
