

Foxfredito - Hypnotised

**She is the talk of the town got the men down on their knees
Killer body with that walk got ladies feeling down
A devil
In disguise
If the people only knew
She got every man Like a psycho and she really loves that game
She every man's dream girl and she can see that In Their eyes baby she's a 10
But you really got to watch out
She is a runner
She got the options
She doesn't want to get locked down
Oh baby no
Baby, you got me
Addiction it's a problem
WrappĐµd around your finger
Feel hypnotised to your words
Club visits evĐµry day just to see that body
That shape like Jessica rabbit got me
She playing games with every man
Every man fights for her
She has that devilish smile
Attention gives her pride
Lust like a succubus demon
She got ladies feeling jealous
Hey, baby, I hear you the talk of the town what's that about?
Forget that you look good killer body and all how about you and me Go back
to my house and
See what is it about you that got people obsessed
You down let's go

She is the talk of the town got the men down on their knees**

Killer body with that walk got ladies feeling down
A devil
In disguise
If the people only knew
She got every man Like a psycho and she really loves that game
She every man's dream girl and she can see that In Their eyes baby she's a 10
But you really got to watch out
She is a runner
She got the options
She doesn't want to get locked down
Oh baby no
A Diva, perusing thru' the playboy is where I can see her
The talk town, I wanna be in her
It's like everybody is hypnotized
When you look into her eyes
Her beauty will make you blind
Make you hide all your manners
Every guy is drooling we don't care about manners
Seduce you with her sexy smile I swear you're falling for it
When you meet her in the club you're leaving pockets empty
I can't believe that
I got her down &
She's slurping down my meat
Gobbling Goddess
This Niggas jealous
We're new in town &
Already running down their shit
Their Worst nightmare!
Niggas aside!
Shawty has me tripping with the feelings
Now I'm wanted in Crime
Hizo curves zinafanya ninachizi, me si mwizi
Ik
