

Revolver - Let's Get Together

**Tell me about the things you can't control
What wakes you up before the morning comes
I never tried to read the souls
Let's get together**

**I hear moneymakers leaving sleepy homes
The city lights will soon fade into the dawn
Right now we're on our own
Let's get together**

**Don't let it bring you down
Gimme your hand time is out
We're dancing in the dark
Let's get together**

**I keep thinking there's something you know
I keep dreaming you're gonna show me
A new horizon in the morning lights
A crack in the sky that's not gonna last**

**But I gotta get up when the morning comes
And try to turn the dream into a song
Sometimes you just can't make it alone
Let's get together**

**Don't let it bring you down
Gimme your hand time is out
We're dancing in the dark
Let's get together**
