You

You don't know what's inside me

I'll let you know it yeah

You

If you try to define me

I'd rather break it

I feel pain, I feel love just like you bae

Sometimes I can't tell what's going in my head

I got too many outfits I've tried in my bedroom

It's time for some new

Let's just get naked (naked)

I'm sick of all the hesitation

Let's do whatever we decide to

Name it

We got no limitation

Let's just get naked (naked)

Don't worry bout the reputation

I don't need any fence around me

Let's break it

My brand new salutation

(Let's just get)
