

Revolver - You Drove Me Home

**I don't know why the sky is blue
I don't care I see it in your eyes
Everything's been clear since I met you
The nights follow the days and it's okay
I don't know how we'll find a way
But I know it should be easy if we stay together**

**Hold me close
Don't ever go
You know I fooled so many people
I couldn't fool you
You Drove Me Home and I fell asleep in the car
I can still hear you knocking on my door
On the second night and second floor
I can still see you walking on the shore
Delighted by the tree sent by a storm
Everything must fade away, I know
But as long as we stay together I don't care**

**So hold me close
Don't ever go**

**You know I fooled so many people
I couldn't fool you
You drove my home**

**Now I'm walking
And I see clearly around me
The fairies dancing in the streets
And I'm travelling
But we'll never be apart**

The love we have can never pass
