

Fall Out Boy - Love From The Other Side

{Verse 1}

Model house life meltdown

Still a modern dream letdown

It kills me you know I'm dying out here

What would you trade the pain for?

I'm not sure

We were a hammer to the Statue of David

We were a painting you could never frame and

You were the sunshine

Of my lifetime

What would you trade the pain for?

{Pre-Chorus}

This city always hangs a little bit lonely on me

Loose

Like a kid playing pretend in his father's suit

I'd never go, I just want to be invited

Oh

Got to give up

Get the feeling

Get the feeling

Don't fight it

Fight it

{Chorus}

Sending my love from the other side of the apocalypse

And I just about snapped

Don't look back

Every lover's got a little dagger in their hand

Love from the other side of the apocalypse

And I just about snapped

Don't look back

Every lover's got a little dagger in their hand

{Verse 2}

Generation sleep I'm falling in and out of love

I'm getting that tilted feeling out here

What would you trade the pain for?

I'm not sure

Nowhere left for us to go but heaven

Summer falling through our fingers again and

You were the sunshine

Of my lifetime

What would you trade the pain for?

{Pre-Chorus}

They say we gotta get ahead yeah

No matter what it takes

But there's no way off the hamster wheel on this rat race

I'd never go, I just want to be invited

Oh

Got to give up

Get the feeling

Get the feeling

Don't fight it

Fight it

{Chorus}

Sending my love from the other side of the apocalypse

And I just about snapped

Don't look back

Every lover's got a little dagger in their hand

Love from the other side of the apocalypse

And I just about snapped

Don't look back

Every lover's got a little dagger in their hand

{Bridge}

I saw you in a bright clear field

Hurricane heat in my head

The kind of pain you feel to get good in the end

Good in the end

Inscribed like stone and faded by the rain:

â€œGive up what you love

Give up what you love before it does you inâ€

{Chorus}

Sending my love from the other side of the apocalypse

And I just about snapped

Don't look back

Every lover's got a little dagger in their hand

Love from the other side of the apocalypse

And I just about snapped

Don't look back

Every lover's got a little dagger in their hand

Sand in my love
